Palm Records – a new, small and independent record company

Palm Records

is a newborn, little record company in Trångsund (suburb of Stockholm, Sweden) that has specialized in nostalgic rockmusic in common and instrumental guitar music in special. Palm Records has chosen a niche where the captivating, ing- and dance-friendly popmusic from the nice 1960's is in focus. In Sweden you call that particular form of guitarbandmusic from the 60's "Taggtrådsmusik" ("Barbed wire-music"). Guitargroups and other kinds of good nostalgic music will be released on our labels, but the instrumental music will dominate in number of the productions.

We are now releasing two cd-albums to mark our debut on the market. "Parksommar 2006" and "Lenny Attacks Again" are the opening titles. Enclosed you will find press-releases for each of them and also preview-samples of the two albums. The market for this kind of music we believe is, except Sweden, the rest of the Nordic countries, The Netherlands, Great Britain, France, Germany and – as a matter of fact – even in Japan! We are planning for releases in all those countries.

For the future we are counting with a close release of new recorded material layered with lots of goodies that has been out of the market for too long and also music that for some reason never was released. We have signed a cooperation with two specialized recording studios, "Rainbow Studio" in Ösmo (south of Stockholm) wellknown to instrumental enthusiasts for many years and the completely new "King of Hearts" studio in Trångsund (a suburb of Stockholm). The first one operates an analog system and the second one is all digital.

For the moment we are mixing our third production where "The Vintage" from Hainge makes their debut (PRCD 0603). Three of the bandmembers are in the ages 12-16 years and the fourth has also "reached his 15" as the bandleader, Tim Carlstedt, often says. The debut-cd will be named "A New Age In Space" and will be released in the middle of February 2007.

Yesterday the recordings for "The Fairlines" second cd (the first on Palm Records label) were completed. "Fairlines" is one of the best cover-bands in Stockholm when you mean rock- and popmusic from the 50's and 60's. The name of the album is "In Dreams" and it will be released in mid-March 2007 (PRCD 0604).

A cover-album with some of the great solo-guitarists all over Sweden is very interesting and will be released in the first half of 2007 (PRCD 0605). The plans also contain a completely new album with "The Spacemen" (it is almost 10 years since their latest). Release is planned for april/may 2007. A serie called "Masterclass" will portrait some of the most famous Swedish sologuitarists. First "virtuoso" in that serie will be Björn Andersson from "The Moonriders". In total we are counting with some ten cd-albums during our first year.
